Alimokon Street, Basak San Nicolas, Cebu City 6000

CAREER PROFILE

An **Information Technology** student in Cebu Institute of Technology - University driven to yield impactful results in every development project. Equipped with a solid foundation in software development, with practical experience in database management, Java Spring Boot Applications, and React.js UI/UX design. Always eager to learn, solve problems, and seek opportunities to apply the technical expertise in a fast-paced, real-world environment.

SKILLS

SOFT SKILLS

Team Collaboration	Documentation/Reporting
Critical Thinking	Problem Solving
Analytical Thinking	Excellent communication

TECHNICAL SKILLS

Java Fundamentals	API Integration
Spring Boot CRUD Operation	Postman API Testing
React Fundamentals	Object-Oriented Programming

PROJECTS

StartupSphere (January 2025 - Present)

A website for startup companies that involves stakeholders, company rankings, and a map to pinpoint their locations. It is a unified work ecosystem that is being done in the DTI, DOST, and DICT (Agenda, Funding, and Validation)

CSSHUB (January 2025 - May 2025)

A website made for the CCS Department of CIT-U. It showcases events, available merchandises, and the committees at work. You can order, set a schedule, set a payment, and be updated with the ongoing activities around the CCS Department.

Civili.fy (August 2024 - December 2024)

A website used for finding lawyers available in your area. Users can choose their types of lawyers to help with their cases. It is tailored for both lawyers and clients. Within the website, communication is enabled between lawyers and clients and can also share information and solutions in helping with the client's case.

GALA (August 2024 - December 2024)

A website used for tourist recommendations within Cebu. A map where you can see recommended restaurants, hiking spots, entertainment spots, malls, and other tourist attractions within a certain mile radius from where you are currently located. It includes scheduling, real time weather status, and traffic reports.

CITUFinds (April 2024 - May 2024)

A Small Business Showcase Android application aimed at spotlighting and supporting small businesses within the campus. This app seeks to address this challenge by providing a platform for students, faculty, and visitors to discover and engage with local entrepreneurs, promoting community support and fostering entrepreneurship within the university.

BrainBlitz (August 2023 - May 2024)

Began with a text-based game Java application turned to a GUI-based, indie-inspired animated design game application. It is a Role-Playing Game about challenging a player's knowledge through Q&As. Players can use different types of fighters to defeat enemies. It is a combined learning and interactive gameplay.
